

EagleEye 365

Automate and operate your GRC in all 3 lines of defense in real-time

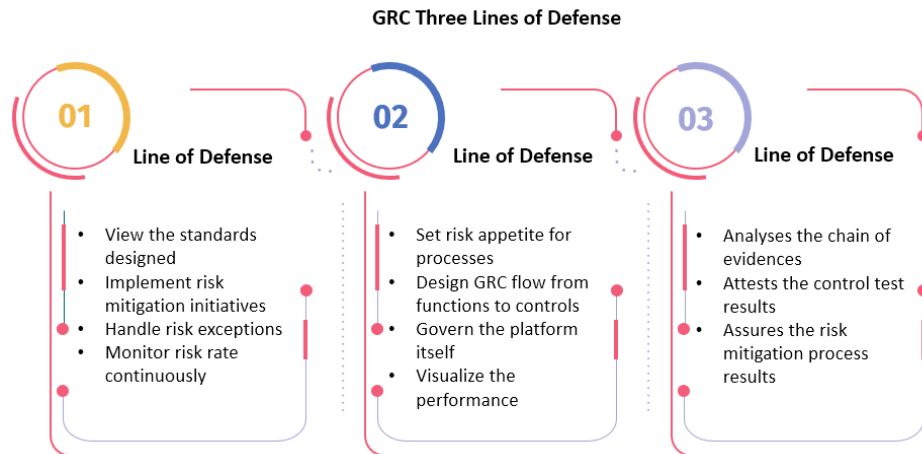

Why GRC ?

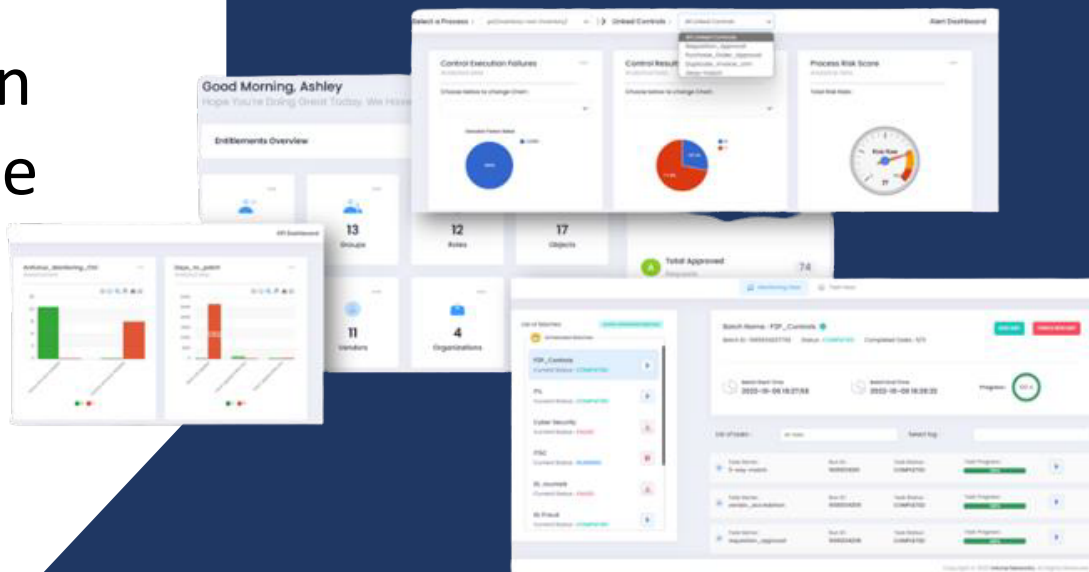

GRC help organizations define their **risk appetite**, monitor, and visualize risk rate which in benefits in **mitigating risk**. The only way to achieve this 100% is by automating and operating in an integrated way in all **3 lines of defense**.

Three Lines of Defense

Three lines of defense play a key role in GRC, as it defines, monitors, provides assurance to management, Board members and external auditors on risk status. When activities done in all three lines happen in one platform, it holds the chain of evidence.

Automate and
operate your **GRC** in
all 3 lines of defense
in real-time with
EagleEye365

In a world where technology is evolving, are you still generating your audit reports on samples and worried about false positives?

Now, you don't have to!

With **EagleEye 365**, experience the confidence of submitting regulatory and audit reports with **100% test on live data.**
